Wedding Services

Here's what we do

There are many options if you are interested in having live music for your wedding & ceremony, for example during the processional & signing could be accompanied by an acoustic duo or string quartet. Another option is having a quartet playing for your guests whilst they arrive before & is definitely a unique touch for the perfect wedding ceremony.

For your guests before you arrive

A smaller selection of the musicians can play traditional jazz & swing or acoustic music in the background to keep the room entertained. This is a really important way to set the tone for the night, without overdoing it - perfect music for chatting & sipping cocktails!

In this instance the band would break down into a smaller group as a quintet or quartet & play some cool chilled out tunes as your guests arrive & keep the room buzzing as your family & friends zip their wine & cocktails.

As you Enter

As the newlyweds make their entrance, the band pumps it up a bit with pre select tunes as you & the bridal party enter the reception.. This is normally 20 second snippets of your favourite tunes that are typically associated closely with that particular bridal party member, for example as the younger bridal party members enter, why not play some Uptown Funk, Let's Get Loud, Moves Like Jagger, 24K Magic, Let's Groove Tonight & more, & then whilst parents are announced, why not a little bit of Frank Sinatra or Dean Martin, Sway, or L-O-V-E, or That's Life.

The Reception

We can offer our many years of experience to help you tailor the perfect nightlong experience for you & your guests. We will work with you & your other suppliers to ensure your timings for dinner & formalities are perfected to optimise time on the dance floor.
